

FOR THE COUPLE

Filling in your invitation in the Studio, until it is *live*

From picking a design and filling in names and events, to your invitation going live with its own link. All from your phone, in as many sittings as you like — every keystroke saves itself.

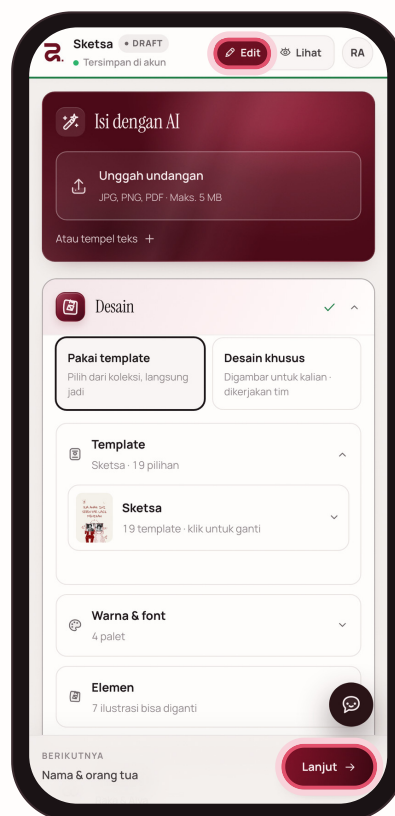

Before you start

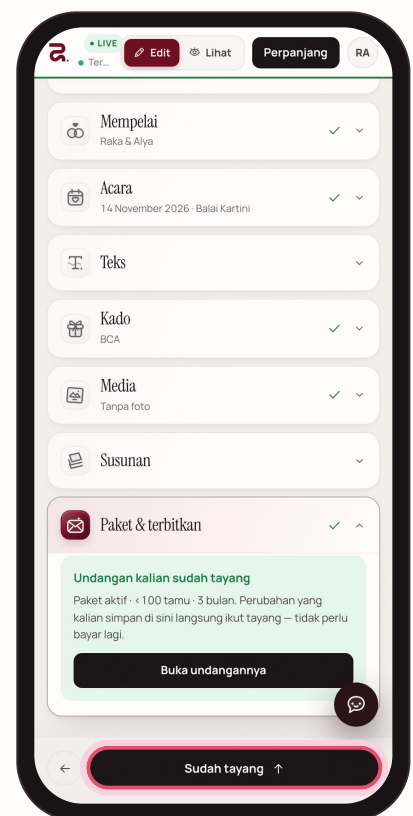

Open rawside.id/wedding/studio on your phone. You can try the Studio without an account — your entries stay in the browser. Once you **sign in or sign up** (email + password, or Google), they move to your account and you can continue from any phone. On a phone there are two views: **Edit** to fill in, **Lihat** (view) to preview. The Studio is in Indonesian; the labels are explained here as they appear.

Lihat — a preview on a phone screen, with the template rail on the left

Edit — the form, top to bottom; the **Lanjut** (next) button walks you step by step

The finish line: the bottom bar reads **Sudah tayang** (live) and your link is active

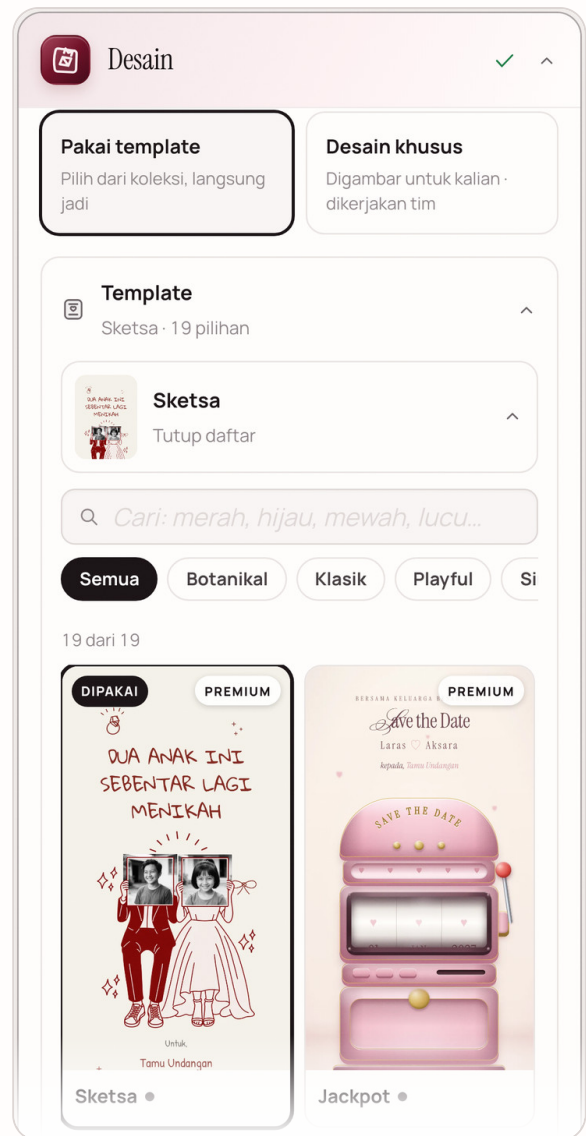

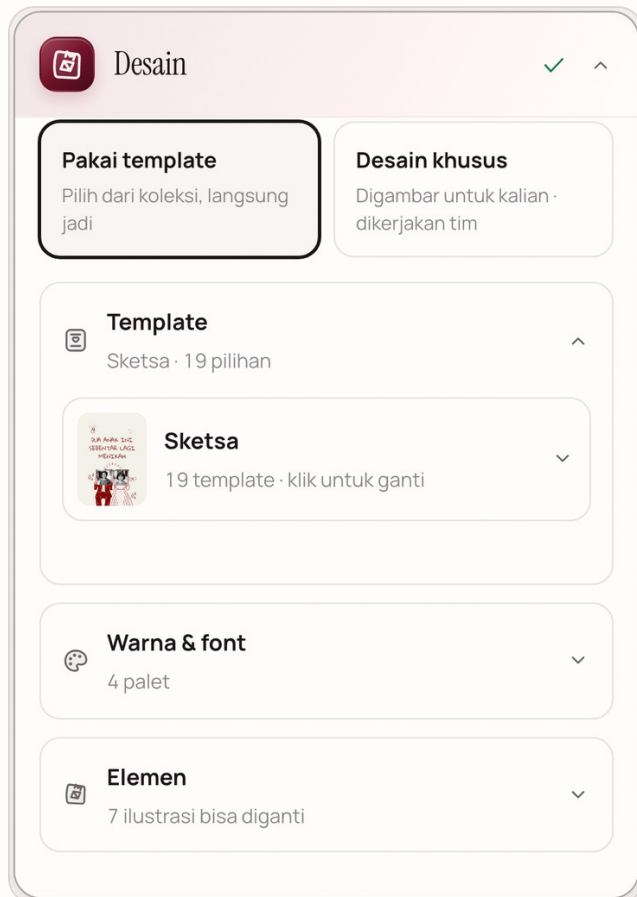

The screens in this guide use a sample couple, **Raka & Alya**, on the Sketsa template. In your Studio you will see your own names and choices.

1

Pick a design

Two roads: **Pakai template** (pick from the collection, ready at once) or **Desain khusus** (drawn by the Rawside team after you order). Tap the **Template** row to open the collection, then set **Warna & font** (colours & fonts) and **Elemen** as you like – all of it can be changed again later; your entries are kept.

The template collection: tap a card to try it, search by category or name

2

Fill in with AI

Have an old invitation, a photo of a card, or notes? Upload it (JPG, PNG, PDF) or paste the text, then tap **Isi otomatis**. Names, parents, date, times and venue are written into the form in 10–20 seconds. Anything you have already typed is not overwritten – only empty fields are filled.

Optional. Everything can still be typed by hand in the next steps.

3

Names & parents

Nicknames go on the cover, full names inside. Each partner's father and mother are written here too. The line above the parents (e.g. "Putra pertama dari", first son of) can be edited.

Mempelai ✓ ^

Mempelai pria

Nama panggilan
Raka

Nama lengkap
Raka Pradipta

Nama ayah
Bapak Hendra Prac

Nama ibu
Ibu Sari Dewi

Mempelai wanita

Nama panggilan
Alya

Nama lengkap
Alya Kirana

Nama ayah
Bapak Bambang Ki

Nama ibu
Ibu Ratna Sari

4

Date & venue

Fill in the date and time of the ceremony, the reception time, the venue name, address and a Google Maps link (the "open directions" button uses it). The countdown and the "save to calendar" button follow these fields automatically. Dress code is optional.

Acara ✓ ^

Waktu

Tanggal & jam akad
14/11/2026 10.00

Sabtu, 14 November 2026 · 10.00 WIB · WIB. Kalender, countdown, dan hari otomatis ikut.

10.00 - --

☐ sampai selesai

Jam resepsi
12.00 - 15.00

☐ sampai selesai

Lokasi

Nama tempat
Balai Kartini

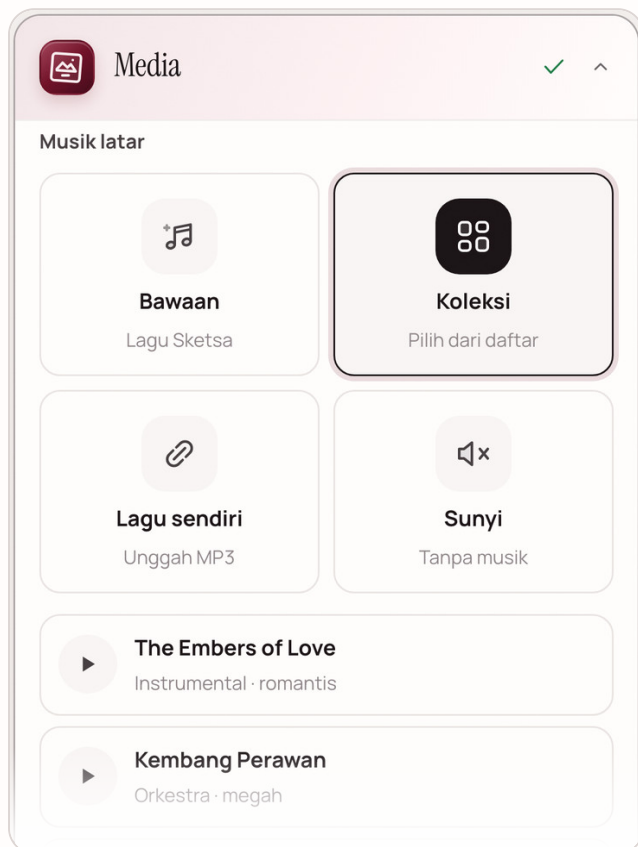

Alamat

The bottom bar always shows the next step and how many required ones are left. Tap **Lanjut** to move on, or open any step straight from the list. A ✓ on a step's title means it is complete.

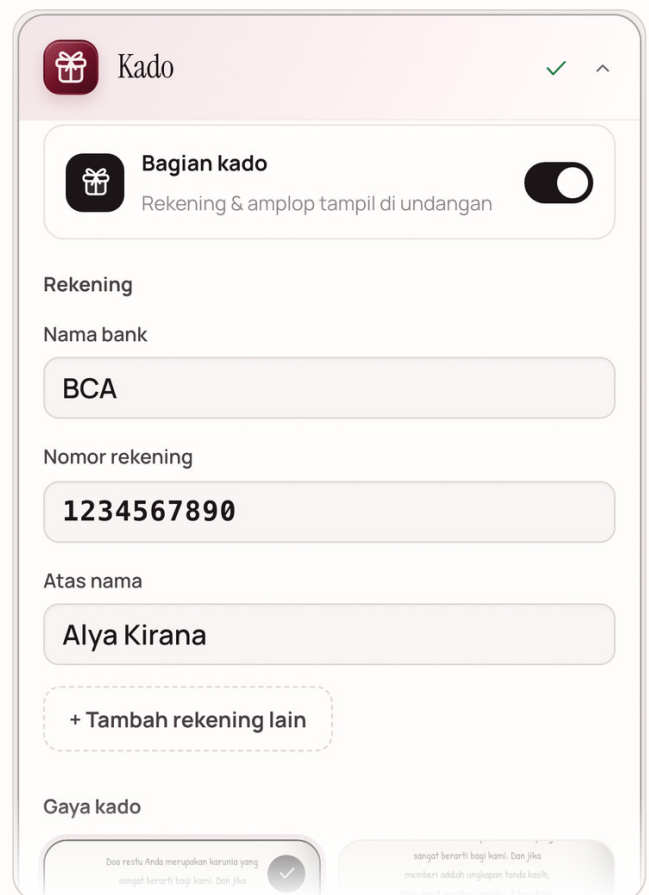

5 Photos & music

Tap a sample photo to replace it with yours; photos are resized automatically to keep the page light. Rather no photos? Choose **Tanpa foto** – the template stays tidy without them. Music can come from the Rawside library, your own upload, or none.

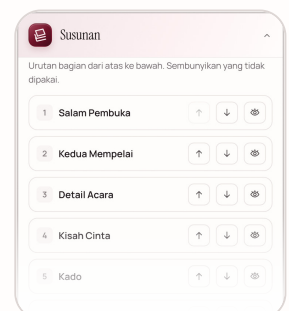

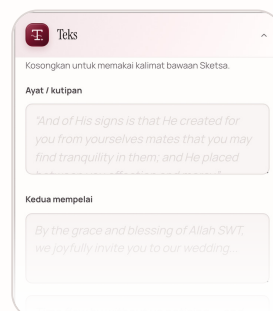

6 Gift

Bank name, account number and account holder – guests copy the number with one tap. Add another account, upload a QRIS, or switch the gift section off entirely. **Gaya kado** picks the card's look.

7 Text & order (optional)

Opening line, verse, closing words – all editable under **Teks**. The order of the invitation's sections is set under **Susunan**, and sections you do not need can be hidden.

8

Preview it

Tap **Lihat** any time. The preview is exactly what guests will see: tap “Buka undangan”, scroll, try the buttons. You can switch between phone, tablet and laptop sizes.

9

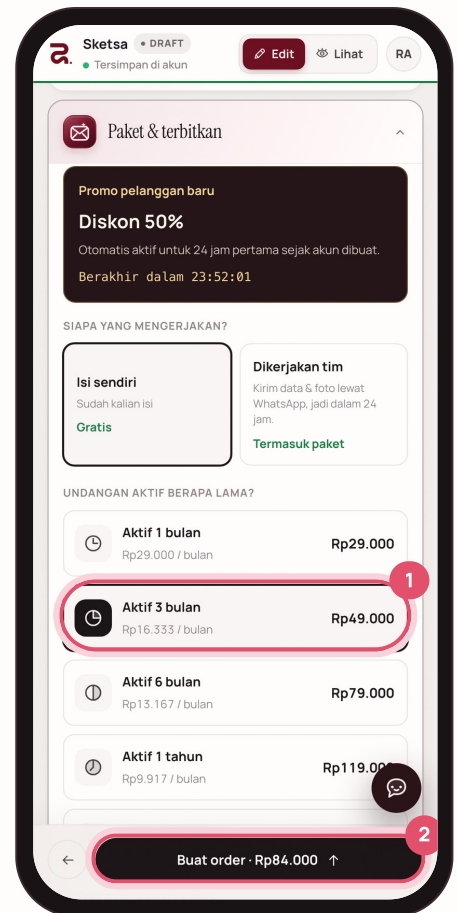

Package & publish

The last step. Choose **who does the work** (yourselves, or the Rawside team), choose **how long the invitation stays active**, add what you need, enter a promo code if you have one. The estimate shows below. Tap **Buat order** (create order) – nothing is paid at this point.

10

Pay & activate

After the order is created, a **Rincian pembayaran** (payment summary) appears with the amount to transfer and the order ID. Tap **Konfirmasi pembayaran via WhatsApp** – a chat to CS opens, already filled in with the order ID and amount. Once the payment is checked, CS activates the invitation, usually the same day.

1 pick the active period · 2 Buat order – the amount follows your choices

Rincian pembayaran

Harga paket	Rp84.000
Diskon promo pelanggan baru	- Rp42.000

Total transfer **Rp42.000**

ID order 37a6df1d
rawside.id/wedding/raka-alya

Order kamu sudah tercatat – selesaikan pembayaran lewat WhatsApp, lalu CS mengaktifkan undangannya.

Konfirmasi pembayaran via WhatsApp

Payment summary, order ID, and the confirm-on-WhatsApp button

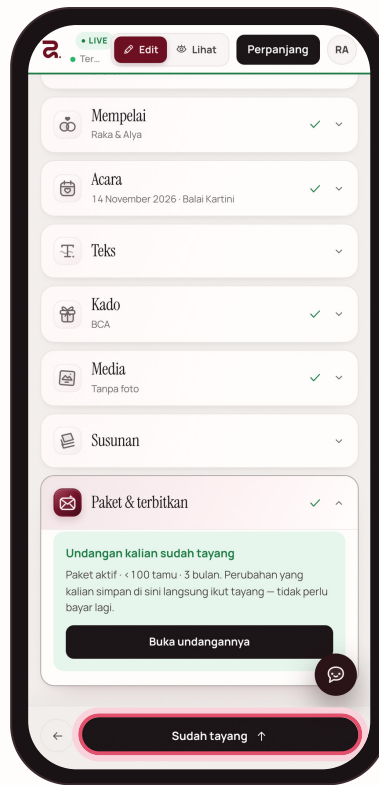

Nothing is charged when you tap Buat order. Payment is a bank transfer after chatting with CS; the 8-character order ID is the reference.

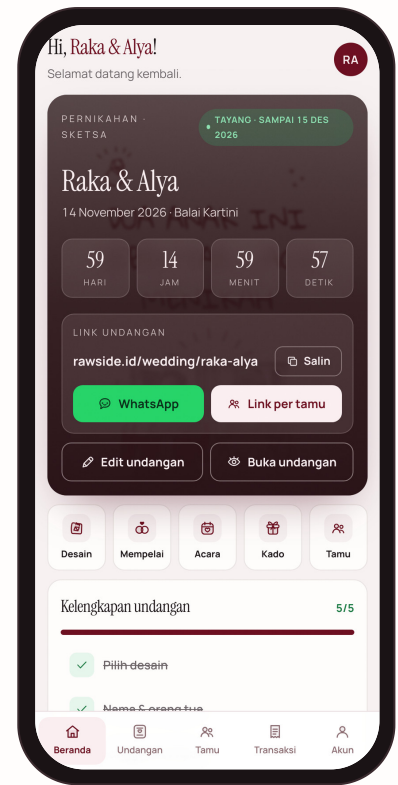

Picked the wrong package? Tap “Ubah paket” – the order ID stays the same, so there is never a duplicate order. The new-customer promo (50% off) applies automatically for 24 hours after the account is created.

- The bottom bar reads **Sudah tayang** and the header shows **LIVE**. Your link: rawside.id/wedding/your-names.
- Changes you save in the Studio **go live immediately** – nothing more to pay. Open the Studio, edit, done.
- The dashboard **Beranda** (home) has your link, the countdown, a share-to-WhatsApp button, and **Link per tamu** to send a personalised invitation to each guest – that guide is at rawside.id/panduan.
- Active period over? Pick a package again from the Package page; the content stays intact.

Bottom bar: **Sudah tayang**, header marked LIVE

Home: live until when, your link, share, per-guest links

Frequently asked

My entries disappeared?

Before signing in, entries live in the browser you used – open it again on the same phone. After signing in they are in your account, safe from any phone.

Made a mistake after going live?

Open the Studio, fix it, done. Changes go live at once, at no cost.

Want a design not in the collection?

Choose Desain khusus in step 1, describe it, attach references. The Rawsider team draws it after you order.

Can I change the template after filling in?

Any time. Names, events, bank details and photos follow to the new template. Colours and fonts belong to each template.

When is the invitation active after paying?

Once CS has checked the payment, usually the same day. You hear back on WhatsApp.

How do I send it to guests?

From the Guests page: a named link per guest plus a ready WhatsApp message. That guide is at rawside.id/panduan.

Still unsure?

The Rawsider team is on WhatsApp every day.
